We're a non-profit non-partisan organization working to improve election transparency and accuracy. We make the Actual Vote system.

Agenda:

1. How vote reporting works
2. What can go wrong
3. How you can be a part of the solution by using our Actual Vote app

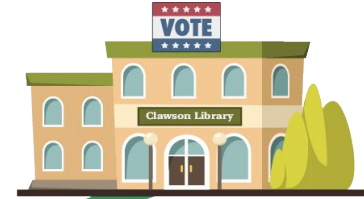

Example of How Votes Are Reported

It's election day in Crow County.

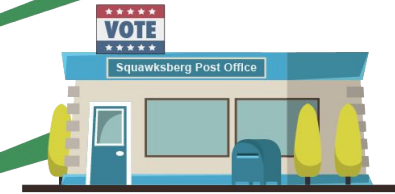

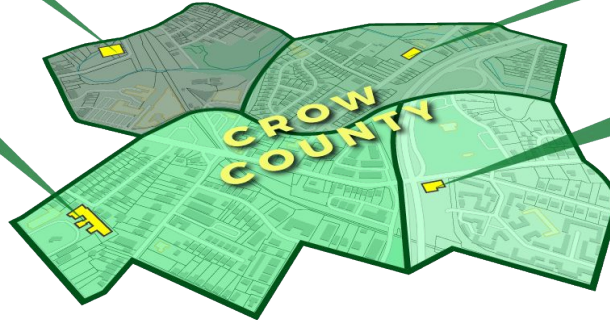

Corvus Hill
Community Center

Clawson Library

Raven Academy
High School

Squawksberg
Post Office

Step 1: Voters vote

Crow County uses ExpressVote machines.

When a voter is done voting, it prints out a piece of paper showing their choices.

(these machines have their own problems)

Step 2: After closing time, votes are tabulated

This is a tabulating machine. Each polling place in Crow County has one.

It scans the pieces of paper from each voter.

When the polls close, it adds or tabulates the vote totals from each paper to get overall vote totals.

Step 3: The tabulator prints poll tapes

A poll tape is a long strip of paper that shows the vote totals from one polling place.

A Closer Look at a Poll Tape

- (1) The header section. This tape is for the Corvus 01 precinct of Crow County, in the Nov 8th, 2022 election
- (2) The vote totals section. US Senate candidate Gina Gold received 60 total votes today at the Corvus 01 precinct

Vote Reporting

Official Results for Crow County

**Vote reporting is vulnerable
to error and fraud!**

**Vote reporting is also vulnerable
to false accusations of
error and fraud!**

Warren County, Ohio, 2004

Were 80,000 votes switched from Kerry to Bush during the reporting process?

Prince William County, Virginia, 2020

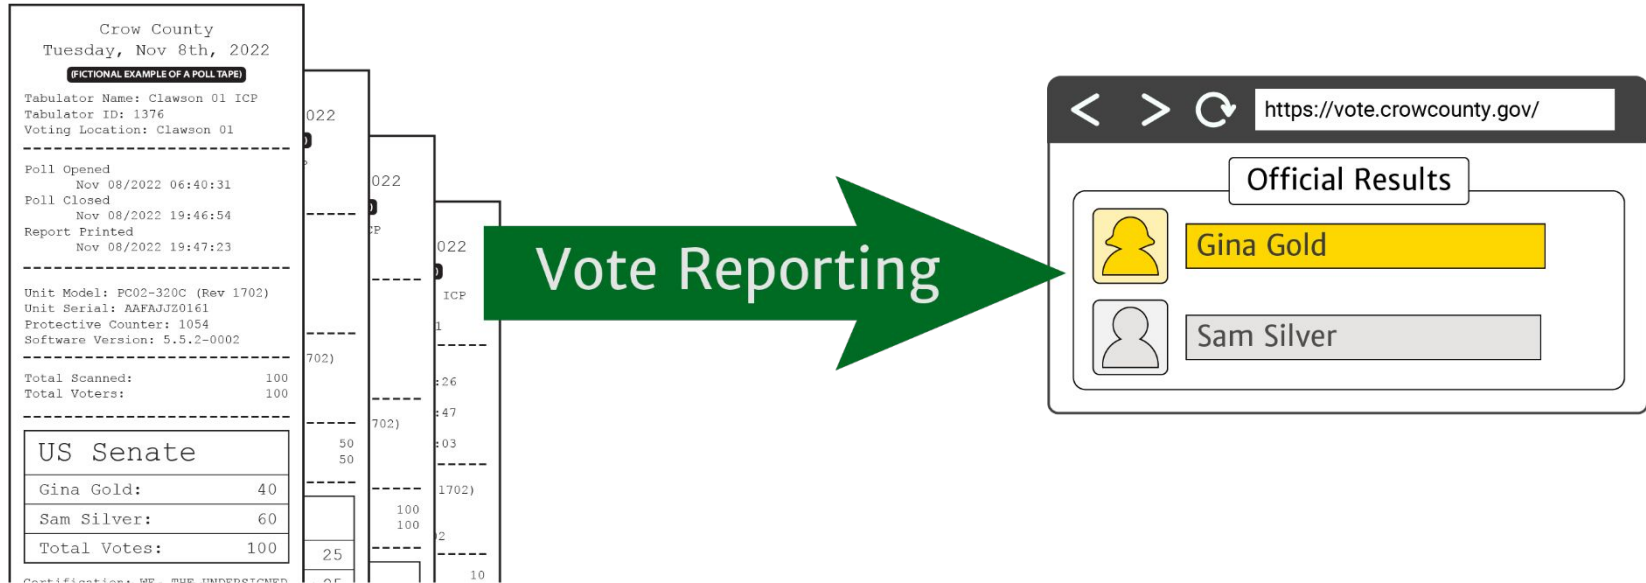

Was Joe Biden's reported total 4,000 votes short?

Baldwin County, Alabama, 2002

Was Don Siegelman's officially reported vote total 7,000 votes too high?

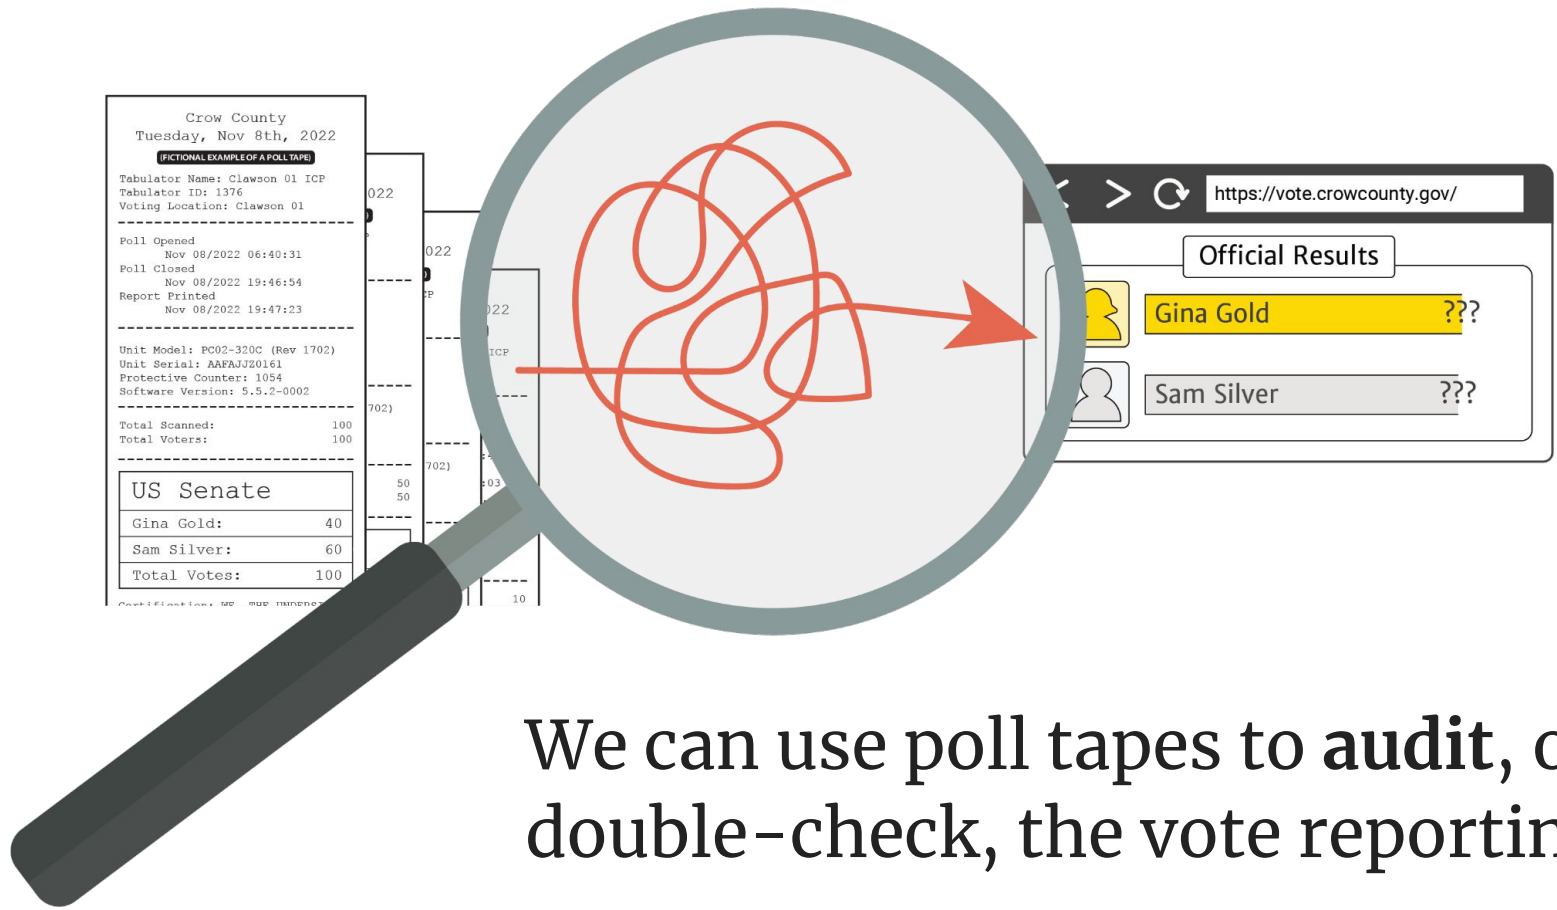

For more on these stories, see <https://americacounts.us/why-its-critical/>

What can we do to protect correct vote reporting...

...and help out when vote reporting might have gone wrong?

The diagram illustrates a discrepancy between a physical ballot and a digital interface. On the left is a paper ballot for Crow County, Tuesday, Nov 8th, 2022. It includes metadata such as 'Tabulator Name: Clawson 01 ICP' and 'Voting Location: Clawson 01'. It also lists election times and a table for 'US Senate' candidates: Gina Gold (40 votes) and Sam Silver (60 votes), with a total of 100 votes. On the right is a digital interface for 'https://vote.crowcounty.gov/' showing 'Official Results' for 'Gina Gold' and 'Sam Silver', both with '???' next to their names. A red scribble is drawn over the ballot, with an arrow pointing to the digital interface, suggesting a comparison or a problem with the data transfer.

We can use poll tapes to **audit**, or **double-check**, the vote reporting!

Key Insight

Poll tape totals should equal official totals!

Idea:

1. Get people across the US to video-record poll tapes with their mobile device
2. Collect the recordings in a central location
3. Efficiently compare the vote totals on the poll tapes to the official results

Actual Vote is a free app from America Counts that enables large-scale nationwide vote report auditing.

Go to <https://americacounts.us/get-actual-vote/> for download links. You can also search for “Actual Vote” on the App Store or the Play Store.

With Actual Vote, people like you video-record poll tapes at some point after they're printed.

Raven 01	25	25
Clawson 01	40	60
Corvus 01	60	40
Squawksberg 01	6	4

Official Results by Precinct

Gina Gold

Sam Silver

Most of the time, the results match exactly. ✓

	A	B	C	D	E
1		Gina Gold		Sam Silver	
2	Precinct Name	Poll Tape	Official	Poll Tape	Official
3	Corvus Hill Community Center	60	60	40	40
4	Clawson Library	40	40	60	60
5	Raven Academy High School	50	50	50	50
6	Squawksburg Post Office	6	6	4	4

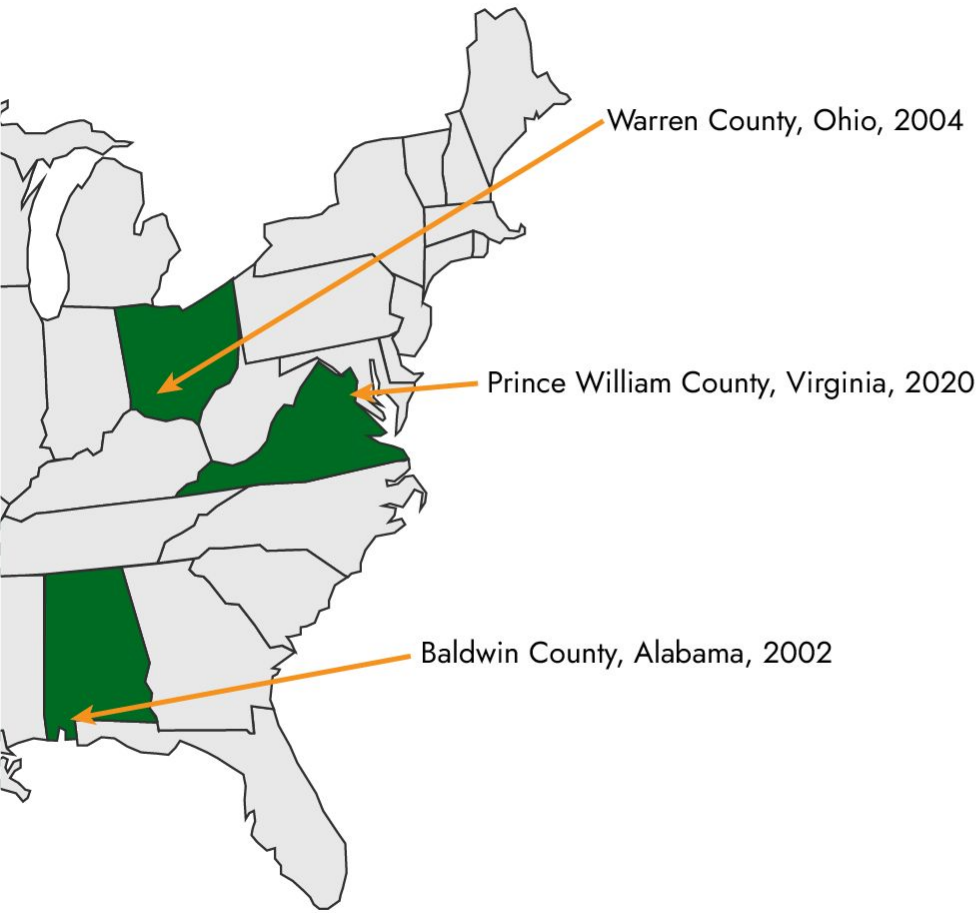

If we find an apparent discrepancy, we escalate it to election officials.

Sometimes they provide a satisfactory explanation.

If they don't, the Actual Vote videos can be used as evidence in a court case challenging the official results.

	A	B	C	D	E
1		Gina Gold		Sam Silver	
2	Precinct Name	Actual	Official	Poll Tape	Official
3	Corvus Hill Community Center	60	60	40	40
4	Clawson Library	40	40	60	30
5	Raven Academy High School	50	50	50	50
6	Squawksburg Post Office	6	6	4	4

For each of these three scenarios...

If enough Actual Vote poll tape videos had been submitted, they would have clearly shown what the correct reported totals should have been.

But we don't have any—so we'll never know for sure.

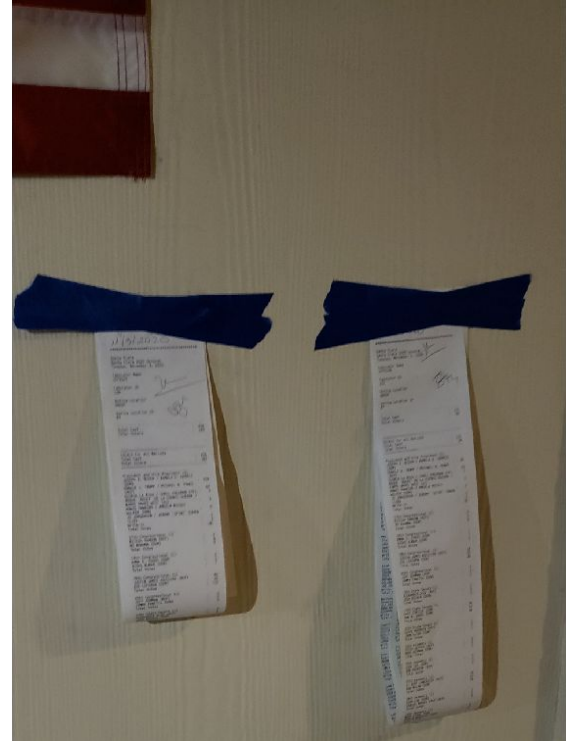

Improved Election Transparency
Improved Election Accuracy
Improved Voter Confidence
Protect Against False Accusations

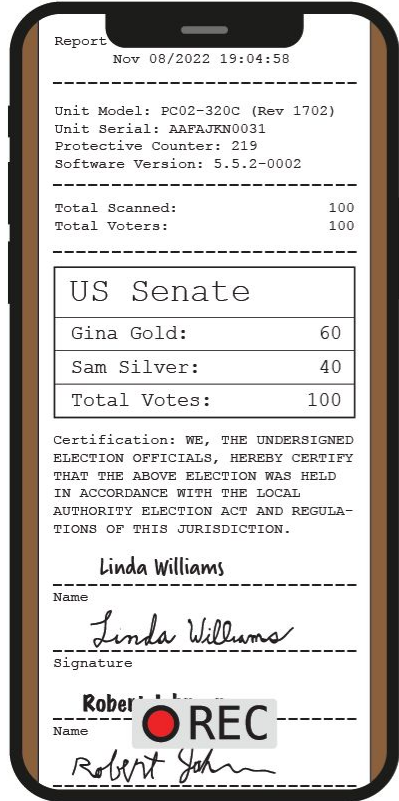

There are five ways to access poll tapes:

1. Outside of polling places on election night
2. Poll observers and workers as the tape is being printed
3. Make an appointment with your local elections office to record tapes
4. Freedom of Information Act request for poll tape images
5. Special cases

Methods 3-5 can access poll tapes from Absentee and Early Voting!

Poll tapes posted on election night

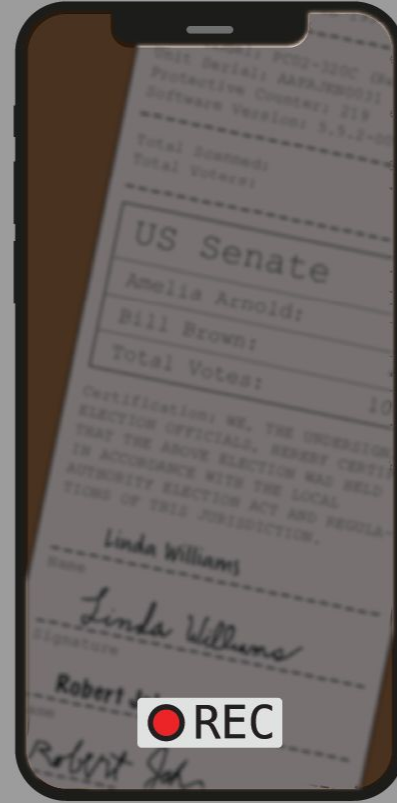

Great recordings are:

 In focus and well-aligned

 Legible

 Well-lit

Bad recordings are:

 Blurry and crooked

 Hard to read

 Poorly lit

Basic steps for making a plan to use Actual Vote on election night:

1. Download the app and make a practice recording
2. Find a friend to go with you to hold a flashlight
3. Find a list of all polling places in your county
4. Choose some to visit on election night

Finding a list of polling places in your county

- Search “Baldwin County, Alabama elections website” and look for something like “Precinct and Polling Locations”
- Search “Baldwin County, Alabama list of 2024 polling places”
- Be persistent!

What 3 people you know might
join you in using Actual Vote?

Get involved in other ways!

1. Help coordinate Actual Vote users in your area
2. Spread the word in person and on social media
3. Help America Counts transcribe numbers from poll tape videos
4. Help America Counts with Actual Vote data analysis

And there's one more way you can make use of the poll tapes. Here's a special guest to present that!
